All My Papers Releases X9 QUALIFIER for Image Cash Letters

Saratoga, CA – October 22, 2007 – All My Papers (AMP), a developer and distributor of software products that address critical interoperability and data integrity issues for check image exchange, announced today its release of the **X9 QUALIFIER** for X9.37 files (aka as Image Cash Letters, ICLs). The **X9 QUALIFIER** application enables testing, validation, and auto correcting of TIFF check image files contained in X9.37 files and is a capable tool for testing interoperability and maintaining data integrity.

The **X9 QUALIFIER** is designed for anyone working with or implementing a system that will process X9.37 files. The application will reduce implementation costs, time and ongoing maintenance efforts, and can be used in many financial institution departments such as:

- *Operations*
  - Ensures TIFF images received in X9.37 files are interoperable and can be processed in your environment
  - Ensures TIFF images in outgoing X9.37 files are interoperable and will not be returned for TIFF format issues
  - Certify remote deposit customers X9.37 files for interoperable image format
  - Create detailed report of non-conforming TIFF check images
  - Correct check TIFF images for conformance to X9.100-181 "Specifications for TIFF Image Format for Image Exchange" standard

- *Development*
  - Ensures check image capture systems produce X9.37 files with interoperable TIFF images
  - Analyze problems with non-conforming TIFF images
  - Build workflow solution for processing X9.37 files that contain non-conforming TIFF images
  - X9 QUALIFIER functionality can be built into solutions using All My Papers AX9LIB SDK

- *Testing*
  - Certify that X9.37 files produced by capture and clearing systems contain interoperable TIFF images
  - Certify that check scanner hardware produces interoperable TIFF images
  - Troubleshoot problematic X9.37 files

Built on the .NET Framework, the **X9 QUALIFIER** tests, certifies, reports and automatically corrects using the Microsoft Windows operating system.

"The **X9 QUALIFIER** is a software application whose value increases with the exponential growth of Image Cash Letter exchange" said Larry Krummel, President of All My Papers. "When a financial institution finds a bad check image TIFF file in a 25,000 item cash letter, it needs to be quickly deleted or corrected and the new file sent off to meet the deadline. The **X9 QUALIFIER** gives these institutions a simple, fast and cost effective tool to do that and many other functions."

To download a FREE copy of **X9 QUALIFIER** go to http://www.allmypapers.com/x9qualifier.htm
The royalty FREE limited functional version of the software only allows the testing of the check image TIFF files in the X9.37 file using a pass/fail report.
